

108TH CONGRESS  
2D SESSION

# H. CON. RES. 189

---

IN THE SENATE OF THE UNITED STATES

MARCH 25, 2004

Received and referred to the Committee on Commerce, Science, and  
Transportation

---

## CONCURRENT RESOLUTION

Celebrating the 50th anniversary of the International Geophysical Year (IGY) and supporting an International Geophysical Year-2 (IGY-2) in 2007–08.

Whereas the year 2007 is the 50th anniversary of the IGY of 1957–58;

Whereas the IGY, conceived in and promoted by the United States, was the largest cooperative international scientific endeavor undertaken to that date, involving more than 60,000 scientists from 66 nations;

Whereas the IGY legacy includes the dedication of an entire continent to cooperative scientific study through the Antarctica Treaty and the inauguration of the global space age through the launching of Sputnik and Vanguard;

Whereas IGY cooperation continues as the model and inspiration for contemporary world science and also, in this strife-torn era, for the human species as a whole;

Whereas the IGY was conceived as a follow-on to the International Polar Year of 1932 that would reflect new and more globally comprehensive research and measurement techniques in geophysics; and whereas in like-minded spirit it would be appropriate for an IGY-2 to reflect global developments in biology, genetics, the neurosciences, and other areas of scientific research;

Whereas it also would be appropriate for an IGY-2 to recognize interdisciplinary research that incorporates the physical and social sciences and the humanities in enriching understanding of diverse life on Earth;

Whereas the 35th anniversary of the IGY was commemorated by the International Space Year, a globally implemented congressional initiative conceived by the late Senator Spark Matsunaga of Hawaii, that was highlighted by globally coordinated environmental monitoring and research whose ongoing legacy continues to benefit humanity; and

Whereas it is entirely fitting that Congress takes the lead again, in the same spirit, in promoting global cooperation through worldwide commemoration of the IGY with activities reflecting the unity and diversity of life on Earth: Now, therefore, be it

1       *Resolved by the House of Representatives (the Senate*  
2 *concurring)*, That it is the sense of Congress that the  
3 President should—

4           (1) endorse the concept of a worldwide IGY-2  
5       for the 2007–2008 timeframe;

6           (2) direct the Director of the National Science  
7       Foundation and the Administrator of the National  
8       Aeronautics and Space Administration, in associa-  
9       tion with the National Academy of Sciences and  
10      other relevant governmental and nongovernmental  
11      organizations, to initiate interagency and inter-  
12      national inquiries and discussions that explore the  
13      opportunities for a worldwide IGY-2 in the 2007–  
14      2008 timeframe, emphasizing activities dedicated to  
15      global environmental research, education, and pro-  
16      tection; and

17          (3) submit to Congress at the earliest practical  
18      date, but no later than 6 months after the date of  
19      adoption of this resolution, a report detailing the  
20      steps taken in carrying out paragraphs (1) and (2),

- 1 including descriptions of possible activities and orga-
- 2 nizational structures for an IGY-2 in 2007–2008.

Passed the House of Representatives March 24,  
2004.

Attest:

JEFF TRANDAHL,

*Clerk.*
